

Zoom Tips for Students

Mute your Microphone

To minimize background noise, mute your microphone when you are not speaking.

Remove Distractions

Remove unnecessary distractions (ex. silence notifications and minimize tabs or other apps).

Be Professional

Wear the same clothes you would wear to an interview. (Wear pants not PJs.)

Prepare Beforehand

Make sure you have any files or links that you will be sharing ready to go before the meeting starts to avoid “technical” delays.

Remember you're on Camera

When on-camera, the audience can see you. Eating, folding laundry, etc. is more noticeable and distracting.
